# Preface

These Philippine Bidding Documents (PBDs) for the procurement of Goods through Competitive Bidding have been prepared by the Government of the Philippines for use by any branch, constitutional commission or office, agency, department, bureau, office, or instrumentality of the Government of the Philippines, National Government Agencies, including Government-Owned and/or Controlled Corporations, Government Financing Institutions, State Universities and Colleges, and Local Government Unit. The procedures and practices presented in this document have been developed through broad experience, and are for mandatory use in projects that are financed in whole or in part by the Government of the Philippines or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184.

The Bidding Documents shall clearly and adequately define, among others: (i) the objectives, scope, and expected outputs and/or results of the proposed contract or Framework Agreement, as the case may be; (ii) the eligibility requirements of Bidders; (iii) the expected contract or Framework Agreement duration, the estimated quantity in the case of procurement of goods, delivery schedule and/or time frame; and (iv) the obligations, duties, and/or functions of the winning bidder.

Care should be taken to check the relevance of the provisions of the PBDs against the requirements of the specific Goods to be procured. If duplication of a subject is inevitable in other sections of the document prepared by the Procuring Entity, care must be exercised to avoid contradictions between clauses dealing with the same matter.

Moreover, each section is prepared with notes intended only as information for the Procuring Entity or the person drafting the Bidding Documents. They shall not be included in the final documents. The following general directions should be observed when using the documents:

- a. All the documents listed in the Table of Contents are normally required for the procurement of Goods. However, they should be adapted as necessary to the circumstances of the particular Procurement Project.
- b. Specific details, such as the “*name of the Procuring Entity*” and “*address for bid submission*,” should be furnished in the Instructions to Bidders, Bid Data Sheet, and Special Conditions of Contract. The final documents should contain neither blank spaces nor options.
- c. This Preface and the footnotes or notes in italics included in the Invitation to Bid, Bid Data Sheet, General Conditions of Contract, Special Conditions of Contract, Schedule of Requirements, and Specifications are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow.

- d. The cover should be modified as required to identify the Bidding Documents as to the Procurement Project, Project Identification Number, and Procuring Entity, in addition to the date of issue.
- e. Modifications for specific Procurement Project details should be provided in the Special Conditions of Contract as amendments to the Conditions of Contract. For easy completion, whenever reference has to be made to specific clauses in the Bid Data Sheet or Special Conditions of Contract, these terms shall be printed in bold typeface on Sections I (Instructions to Bidders) and III (General Conditions of Contract), respectively.
- f. For guidelines on the use of Bidding Forms and the procurement of Foreign-Assisted Projects, these will be covered by a separate issuance of the Government Procurement Policy Board.

## Technical Specifications

### Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

#### **Sample Clause: Equivalency of Standards and Codes**

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words "*or at least equivalent.*" References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

In case of Renewal of Regular and Recurring Services, the Procuring Entity must indicate here the technical requirements for the service provider, which must include the set criteria in the conduct of its performance evaluation.

# Technical Specifications

Specification	Statement of Compliance
	<i>[Bidders must state here either “Comply” or “Not Comply” against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of “Comply” or “Not Comply” must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer’s un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder’s statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]</i>

6.4. Liability of the agency shall not be limited to the value of the Performance Security but to the actual loss, damage or injury that may have been suffered by PMO, its personnel or representatives.

6.5. It is further agreed that in the said cases of loss, damage or injury, PMO's claims against the Performance Security does not preclude it from claiming for the value of such loss, damage or injury, so long as the amount due has not been fully collected by PMO. In line with this, the SERVICE PROVIDER hereby allows PMO to withhold payment of its service fees until the value of the said loss, damage or injury has been paid to PMO or to directly offset such payment with said value.

6.6. In addition, the Performance Security shall likewise be made to cover any and all claims for non-payment of wages, salary differentials or whatever monetary claims the personnel may have against the SERVICE PROVIDER, to the extent of work performed under this contract. In such event, the liability of the SERVICE PROVIDER shall not be limited to the amount of the Performance Security, but to the actual amount of the claims of the personnel.

6.7. The cost of obtaining the Performance Security and maintaining the same for the duration of the effectivity of this Contract shall be borne by the SERVICE PROVIDER.

6.8. Failure to post the Performance Security upon execution of this Contract, and the maintenance thereof for the required period shall be sufficient ground for PMO to terminate this Contract by written notice to the SERVICE PROVIDER without need of any court action.

6.9. In consideration of the limited access to financial institutions, regulatory and other offices, as well as the implementation of government restrictions on transport and travel, a Notarized Performance Securing Declaration (PSD), using the prescribed form attached as Annex "J", may be submitted by the SERVICE PROVIDER in lieu of a performance security.

## **Section 7. PRE-TERMINATION**

7.1 PMO shall have the right, upon written notice to the SERVICE PROVIDER and without need of any action in court, to immediately cause the cancellation/termination of this Contract due to any of the following grounds:

- Violations by the SERVICE PROVIDER of any of the provisions of this Contract;
- Failure by the SERVICE PROVIDER to fulfill any of its obligations under this Contract;
- Non-payment by the SERVICE PROVIDER of the salaries/wages of the personnel assigned to PMO for more than thirty (30) calendar days from the time the same became due. The SERVICE PROVIDER's non-collection from PMO shall not be considered as an acceptable justification for such failure to pay wages/salaries;

- Non-remittance/non-payment by the SERVICE PROVIDER of the compulsory social security benefit contributions of their personnel to the pertinent government agencies (i.e., SSS, Pag-IBIG, Philhealth) and such non-remittance/non-payment of contributions were not acted upon/addressed by the SERVICE PROVIDER within thirty (30) calendar days from notice by PMO.
- Misrepresentation of any material fact pertaining to this Contract or the filing of false documents required by PMO to be submitted by the SERVICE PROVIDER under this Contract.

#### Section 8. PENAL CLAUSE

8.1 In addition to the terms and conditions contained herein, failure of the SERVICE PROVIDER to comply with any of its obligations under this Contract shall entitle PMO to the payment of damages, to be charged against the SERVICE PROVIDER's billings or its Performance Security, without prejudice to any legal action PMO may pursue. These charges shall not be limited to the value of the SERVICE PROVIDER's billings/Performance Security, but shall be equivalent to the actual value of the damage, loss or injury resulting from such failure.

8.2 Failure by the SERVICE PROVIDER to perform any of its obligations under this Contract shall entitle PMO to withhold payment of fees until the former has complied with its contractual obligation, without prejudice to PMO's right to pre-terminate under Section 7 above.

8.3 Nothing herein shall be construed as a waiver of PMO's right to pursue legal action for the protection and enforcement of its rights under this Contract.

#### Section 9. MISCELLANEOUS PROVISIONS

9.1 The SERVICE PROVIDER hereby holds PMO free and harmless from any and all claims its personnel and other employees may make against PMO and its personnel in connection with the performance of the services contemplated under this Contract.

9.2 The SERVICE PROVIDER shall not assign any of its rights and obligations under this Contract to any party without the prior written consent of PMO.

9.3 In case of dispute arising from this Contract, the parties hereby agree that the same shall be subject to the provisions of Republic Act No. 9285, otherwise known as the "Alternative Dispute Resolution Act of 2004".

9.4 If any term or condition of this Contract is held invalid or contrary to law, the validity of the other terms and conditions hereof shall not be affected thereby.

9.5 All Commitments to the terms and conditions set forth in the Bidding Documents shall form part of this Contract, any violation of which will be sufficient ground for the unilateral termination/cancellation/rescissions of this Contract of Services.
